No. 153.

## RICHARD OLNEY HEADS FEDERAL RESERVE BOARD

THIS SELECTION WAS MADE BY THE PRESIDENT

Olney Is Former Secretary of State Serving During Administration of Grover Cleveland

(By Associated Press.) Washington, May 4.—President Wilson has selected Richard Olney, former secretary of State in Cleveland cabinet, to be governor of the federal reserve board. He has also chosen Paul Warburg, of New York, to be a member of the board. This announcement was made this morning.

### TO FEAST HOTEL MEN

Berlin, May 4.—The members of the American Hotel Proprietors Association who are touring Europe, arrived in this city today and will remain until the 7th—that is to say, their itinerary calls for their departure on the date named, but the managers of the tour obviously have not carefully studied the strenuous life which has been planned for the visitors here. The local arrangements have been in the hands of Berlin hotel men and the four days will be marked by feasting and sight-seeing. The object of convincing the American experts that the Kaiser's capital has far and away the best hotels on this side of the Atlantic.

### NATION-WIDE

#### SUFFRAGE CAMPAIGN

Washington, May 4.—A vigorous nation-wide campaign to awaken the country as never before to a realization of the suffrage issue will be carried on in all the States today. The suffrage leaders will conduct meetings in all the larger cities. George Lindabury, a former labor member of the British parliament, will address meetings here. In some States large mass meetings will be held, in others open air demonstrations and parades. The governors of the different States were requested to proclaim today a Suffrage Holiday in order that the working women as well as others might participate in these demonstrations. From coast to coast suffragists will pass and send by special messengers to Washington the following resolution: "Resolved, that this meeting calls upon Congress to pass immediately the resolution which is now before it, proposing an amendment to the United States constitution enfranchising women." The central parade committee of the New York Woman Suffrage Association will not hold the great parade which is looked upon as an annual event. In stead they will hold a demonstration in Union square, New York city, favoring the suffrage amendment to the federal constitution. In Pittsburgh they are having an automobile parade and all the cars are decorated with bunting, flags and huge yellow pompoms. In Chicago the Women's party was refused the use of Grant Park on the grounds that the demonstration could be a political meeting and political meetings are not allowed from city parks; so they negotiated for the use of the American League baseball park, in which they will hold their suffrage rally. In Nebraska district meetings are to be held. Nebraska now a campaign State, for the suffrage petition has been formally filed with the secretary of State. In Nevada, where the campaign for suffrage to be voted on this fall is in progress, a big open air meeting will take place in Reno, Boston, Mass., will have a big parade with mass meetings in the smaller towns in the State. Maine will have a mass meeting in Portland this evening. The different States have all entered into this idea of nation-wide demonstrations with great interest and enthusiasm. Tomorrow many Protestant, Catholic, and Jewish clergymen throughout New York State will speak on suffrage to their congregations. More pulpits were offered to suffrage speakers than could be filled.

## GEN. SICKLES DIED IN NEW YORK TODAY

(By Associated Press.) New York, May 4.—General Daniel E. Sickles died at his home here shortly after 9 o'clock last night. His wife was with him at his death.

## LEGISLATURE CONVENES TO CONSIDER COAL STRIKE

(By Associated Press.) Denver, May 4.—An extraordinary session of the Legislature met today to consider the coal strike situation.

## FIFTY KILLED IN FIRE AT VALPARAISO

(By Associated Press.) Valparaiso, Chile, May 4.—More than fifty were killed this morning in a fire in the commercial district here. Several buildings were destroyed and their flimsy construction made the work of the firemen futile.

## ACCIDENT AT LIGHT PLANT THREW CITY IN DARKNESS

Saturday night an accident occurred at the municipal light and water plant, which put the plant out of business for several hours, the city being dark from about 6:30 during the remainder of the evening and night. The streets were thronged with people, intent on their usual Saturday night purchases, and the loss to the merchants was considerable. Moving picture shows were put out of business, and there was a big demand for kerosene lamps and candles, whose feeble glare presented a marked contrast to the usual brilliant illumination of the shops. It was brought home very forcibly to the people just how great a convenience the electric light service is, and to what extent they depend upon the service.

It was at first feared that the plant would have to be shut down for a week, pending the arrival of repairs and other equipment, but Superintendent Raffo with a force of mechanics worked all night and all day yesterday, with the result that repairs were made to such an extent that lights were furnished the city last night, and the day current is also on today. It is hoped another total breakdown can be avoided until the plant can be strengthened by further repairs.

The immediate cause of the breakdown is said to be due to the inexperience of a new fireman, but the fact of the matter is that the plant is overloaded and entirely inadequate to the needs of the city. About three years ago additions were made to the plant which it was thought would enable it to take care of the needs of Lakeland for several years; but the city has grown beyond the anticipations of any one, and if the people of Lakeland want to prevent a recurrence of such experiences as that of Saturday night, they will have to arrange to put in a plant equal to the city's needs. This can only be done by a bond issue, and such a bond issue should be called at once. It should provide for a sum sufficient to take care of the requirements of a city of twenty-five to fifty thousand inhabitants and such a bond issue should have the support of every citizen.

### MEETING PLANS FOR CONGRESS

Wichita, Kan., May 4.—A State wide gathering is being held here today in the interest of the international dry-farming congress and the international soil products exposition, which will be held in this city in October. This meeting is attended by Dr. Henry J. Waters, president of the Kansas Agricultural College and the dry-farming congress; by the international board of governors of the congress; by Gov. Geo. H. Hodges and by many other well known members of the board interested in making a success of the big event in October.

Augusta, Ga., May 4.—The National convention of Cotton Exchanges and Cotton Manufacturing Associations of the south opened here today. The present customs and rules governing the cotton commerce of the United States and from the United States to foreign countries, will be reorganized.

## MEXICANS AGAIN DEMAND SURRENDER OF OUTPOSTS; NO SHOTS EXCHANGED

GENERAL FUNSTON HAS ASKED THE ADMINISTRATION FOR INSTRUCTIONS REGARDING COURSE TO PURSUE

Carranza Refuses to Join in Armistice; Feeling Against Huerta Increasing at Mexico City Custom Receipts Piling Up

(By Associated Press.) Washington, May 4.—The Mexicans made another fruitless demand for the surrender of the waterworks at Vera Cruz today, according to General Funston. They demanded the outpost's surrender, but did not try to enforce the demand. No shots were fired. General Funston asked instructions from the United States as to contemplated steps.

(By Associated Press.) Washington, May 4.—Although Carranza, head of the Mexican rebels, has refused to declare an armistice with Huerta, the South American envoys resumed their sessions here this morning and are still hopeful. The envoys are now trying to settle the differences between the United States and Huerta. Joaquin D. Casasus, former Mexican ambassador to the United States was this morning ordered here by Huerta and this is believed by many to mark the first step toward the conference called by the mediators. They have asked all concerned to send representatives and Rafael Subaren, Carranza's personal agent is already here. A representative of the United States has not been selected yet. It is said he will not be any one connected with the administration.

(By Associated Press.) Vera Cruz, May 4.—American refugees arriving from the Mexican capital this morning brought diver-

gent stories of the situation there. They confirmed the report of increasing feeling against the Huerta regime and reported a rupture between Huerta and General Blanquet, the war minister. Some declared that Huerta reiterated his refusal to resign, but talked of a possible coup against him. It is a disappointment to Americans there because the United States army has not marched against the capital. There is much speculation here as to the disposition of custom receipts which are said to be more than a million dollars in gold monthly. The money is being impounded pending orders from Washington. The administration here as provost marshal of Colonel T. H. Plummer, began this morning. He has been given a wide latitude by General Funston.

(By Associated Press.) Washington, May 4.—General Huerta has informed the mediators that D. Emilio Rabasa, a Mexican jurist, and Augustine Garra Galindo, under secretary of justice, had been selected as delegates to confer with the mediators. A third name will be submitted tomorrow. Two other names which it is reported will be added to the reserve committee are Harry A. Wheeler of Chicago and W. G. H. Harding, of Birmingham, Ala. Wheeler is a Republican. It is understood that the president intends the board to be non-partisan.

## VENUSTIANO CARRANZA, "SUPREME CHIEF" OF THE CONSTITUTIONALISTS, AND TWO OF HIS AID

This photograph of Venustiano Carranza, "supreme chief" of the constitutionalist forces of Mexico, was taken recently at Hermosillo, his capital in the state of Sonora. Carranza has surprised President Wilson and Secretary Bryan by wiring them that he considered the American

### LOCOMOTIVE ENGINEERS' MEETING

Nashville, Tenn., May 4.—The Southern Association of the Brotherhood of Locomotive Engineers and the Woman's Auxiliary opened here today their annual week's convention. Governor Hooper welcomed the delegates and all local committees are prepared to pull strongly for the national convention. Warren S. Stone, Grand Chief of the Brotherhood of Locomotive Engineers, will take a prominent part in the convention.

### BABY SAVING SHOW OPENED

Philadelphia, Pa., May 4.—A baby saving exhibition has been opened here and it is proposed to conduct it throughout the summer months under the auspices of the Child Federation, which organization will bear all the expense. It is being held in the court yard of the city hall and the permanent exhibition of the department of health and charities, consisting of placards, models and literature, are included in this exhibition.

## CRAMP-MITCHELL CO. GO TO THE WALL

(By Associated Press.) Philadelphia, May 4.—The failure of the Cramp-Mitchell Co., bankers and brokers, was announced on the stock exchange here this morning. Their liabilities exceed three million dollars.

## TO CONSIDER RULES FOR GOVERNING COTTON TRADE

(By Associated Press.) Augusta, Ga., May 4.—A conference called by the local cotton exchange and board of trade for the purpose of improving the rules governing the cotton trade to benefit legitimate buyers began at noon today. Attending it are E. K. Cone, president of the New York exchange; T. J. Glenn, president of the New Orleans exchange, and many others prominent in the cotton business. The present form of the new contract is objected to by many and will be discussed.

## 2 KILLED IN WRECK AT PLANT CITY THIS MORNING

Plant City, May 4.—A C. L. passenger train No. 84, Tampa to Jacksonville, went through an open switch at the Roux Composite brick plant one mile west of Plant City at 6:55 this morning, killing a negro laborer, George Dudley, and fatally injuring the negro fireman who died this afternoon about 2 o'clock. Engineer Leonard, of Sanford, jumped and escaped with only a sprained ankle. The mail clerk received painful but not serious bruises, and several of the passengers were also bruised up, sprained ankles and lost teeth figuring most prominently in their complaints.

The train was running at full speed when it struck the open switch. The engine ploughed through a gondola ballast car loaded with coal and half way through a box car filled with bricks, which, with three other cars was on the siding. In one of these cars was Dudley, the negro, who was thrown under a pile of brick and instantly killed. Another negro in the same car was unhurt. An examination of the switch stand showed that it had been opened and locked by some unknown person, this having been done only a short time before the arrival of the passenger train as other trains had passed over the track safely only a short time before. The wrecker was sent out from Lakeland and by 10:30 the track was cleared and passenger service resumed.

### WOMEN'S TRADE UNION

New York, May 4.—A campaign to double the membership of the Women's Trade Union League was begun today with a May Day celebration held in Cooper Union. Among the guests were Samuel Gompers, Mrs. Raymond Robins, President of the Women's National Trade Union, and Clarence Darrow. Miss Alice Bean, secretary of the local union, has begun a campaign for laws, creating an eight-hour day for women in this State.

### HORSE SHOW AT CAPITAL

Washington, May 4.—The annual spring horse show will open here today and last a week and in point of number and quality of entries this is to be the biggest meeting the national capital has ever seen. Washington horsewomen have taken great interest and are well represented in the jumping events. Mrs. Allen Potts, of Virginia, known as the only woman Master of Hounds in the world, is exhibiting a string of her horses and will ride some of her mounts.

### FRENCH GENIUS BEGAN CANAL

Paris, May 4.—The French-American committee, of which the president is Gabriel Hanotaux, has decided to organize for this month a celebration of the completion of the Panama canal, especially in recognition of the French genius which planned and began the work.

## 4 IMPORTANT BILLS TO BE PUT THROUGH

THIS IS THE ANNOUNCEMENT MADE BY UNDERWOOD

Clayton Anti Trust; Commission; Stock Regulation; Rural Credits Bills Have Right of Way

(By Associated Press.) Washington, May 4.—After a conference with President Wilson, Leader Underwood announced that it had been agreed to put through the Clayton omnibus anti-trust bill, the interstate commerce commission bill, the bill to regulate the issuance of stock securities and the rural credits measure before Congress adjourns.

### J. W. HAYS RE-ELECTED

Indianapolis, Ind., May 4.—J. W. Hays, secretary treasurer of the International Typographical Union, will again be chosen to fill that position by the referendum election held here today. The by-laws provide that the votes of fifty locals are required to nominate a candidate for office and the two men who opposed Hays failed to receive this number of votes.

### REAL ESTATE TRANSFERS

(Furnished by the Security Abstract and Title Company)

May 1 and 2, 1914

E. A. Keller to J. E. Wilson.  
Florence E. Inman to Jesse Washington.
